Colección de pruebas numismáticas españolas

Las piezas que constituyen las colecciones de pruebas numismáticas son monedas especiales acuñadas en el año que figura grabado en el interior de la estrella de seis puntas existente en el reverso de todas las monedas, excepto en la de cincuenta céntimos, que lo lleva en el anverso, y en la de diez céntimos, que no lleva fecha.

Los cospeles, a partir de los cuales se han acuñado las monedas, proceden de una cuidadosa selección y han sufrido un proceso de limpieza y abrillantado especial.

Los troqueles empleados en la acuñación se han preparado especialmente con pulido de brillo espejo de los planos y mateado de los relieves.

La acuñación propiamente dicha se efectúa a cadencia reducida y toda la manipulación final se realiza con el máximo cuidado.
