

Online Coin Auction #111

The image displays two views of a dark, heavily worn, circular metal coin, likely a 17th-century Spanish coin. The left side shows the obverse, featuring a central shield with a cross and a lion, topped by a crown. The right side shows the reverse, featuring a central figure holding a staff, surrounded by a circular border with text. The coin is heavily patinated and shows significant wear, particularly along the edges and in the recessed areas of the design.
